# The Mercury.

JOHN P. SARGENT, Editor and Proprietor  
SATURDAY, MAY 3, 1890.

The season is fully two weeks ahead of last year.

The trade indications all over the country are favorable.

The farmers of the West have combined to raise the price of wheat.

The New York Assembly has passed the Saxon Electoral Reform Bill.

John J. O'Brien, formerly a noted Republican leader in New York, died on Sunday last.

The Republicans propose to have Congress adjourn at an early day. This is a good scheme.

The reports of the failure of the Delaware peach crop, have got abroad as usual at this season of the year. A peach crop without a spring failure would be a rarity.

The Congressional committee which is investigating the murder of Hon. J. M. Clayton, of Arkansas, is obtaining some very damaging testimony in regard to certain of the people of that region.

The Woonsocket Reporter says the Democratic party is trying some way to get rid of Hugh J. Carroll. Wonder how much Democratic party there would be with Hugh Carroll and Jack Brennan out of it.

Last week, it is said, that three million dollars worth of New England capital was invested in Southern lands around Chattanooga, Tenn. Somebody will get left. This enormous land speculation is not healthy.

Woonsocket seems to be having a railroad boom just now. A new road is soon to be built through the neighboring towns, which will make the thriving young city the feeder for a greatly enlarged district.

Fall River capitalists are interested in trying to get a line of railroad to compete with the Old Colony. They have held one or two meetings to consider the matter, but nothing has been accomplished as yet.

The falling off in desertions from the army last year would seem to indicate that Secretary Proctor's reforms are having a good effect. It has been a long time since so much disposition has been shown to consult the comfort and welfare of the enlisted men.

The railroad commission of Massachusetts has granted the petition of the Old Colony Railroad, to build a new line from their Dedham branch of Boston and Providence division to Walpole, and there to connect with the new road now being built to Attleboro.

There is a little narrow-gauge railroad in Pennsylvania, of which one man is the president, the board of directors, the superintendent, the general passenger and freight agent, the ticket agent, the conductor, and the yard master. He had better take that road in over night. Somebody may steal it.

"Webb" sends a column article to the Boston Journal from Washington to show that ex-President Cleveland is entirely out of the race for 1892. This will be pleasing news, if true, to many of his party. Cleveland is not the kind of a Democrat that the rank and file take to cordially.

There is another of those "fire sale" frauds coming to town. It is time that the authorities in some way put a stop to dealers of this kind coming to town. They palm off on the people a lot of worthless clothing and at the same time take a large amount of trade from the legitimate tradesmen that live here the year round and pay the taxes.

Congress has adopted the resolution providing for a new classification of warships. The House has also passed the Morrill Pension bill, which gives a pension to every disabled soldier of any age, whether he can prove his disability was contracted in the army or not, and it gives \$5 a month to every soldier over 60 years of age.

In our Navy, which once was American in every stick and timber, there are now serving among its 7,956 enlisted men as many as 4,280 foreign born, and only 3,670 native born. It is now proposed to require that hereafter no man shall be enlisted into the American Navy except Americans, either native born or naturalized.

The women are "kettling together" at a great rate. About ten days ago there was a convention in New York of working girls' clubs, and the week just closed has seen a similar gathering of women's clubs. These latter came together at the invitation of Sorosis, the object being to form a general federation of women's clubs. About forty of these organizations were represented, and the delegates came from all parts of the North, even North Dakota.

The General Assembly brought the January session to a close last night. It has been a very liberal body in the way of expenditures, and if the State tax does not have to be increased to meet the increased demand, we shall be very fortunate. Among the later acts of the Assembly was the appropriating \$10,000 to the city of Pawtucket for the proper observance of the Cotton Centennial in September. \$1,000 was paid to each of the committee on State Valuation for their services during the past year. The committee with two added was continued another year and made a State Board of Valuation at an expense of \$7,500. Senator Garvin's pet scheme for a constitutional convention was killed in the Senate. During the last two days an immense amount of routine business was transacted.

## The Subject of Trees.

The protection of what few forests we have left in this country is a subject of growing importance. From the earliest settlement of the States to the present day the waste and useless destruction of timber has been constant. Fifty years ago Maine and in fact all Northern New England was a heavily timbered country, now nothing remains but the scrub underbrush. Twenty years ago the region around the great lakes was thought to contain an inexhaustible supply. But we have now practically, seen the beginning of the end of their great industry, and have turned to the Pacific Coast for new lands to make dole. Timber is being bought up in all the wooded region from Puget Sound south, and the rate at which these lands are passing into private hands is increasing fast. The subject of forestry legislation has been brought to the notice of Congress, and it is to be hoped that it will not be permitted to be lost sight of, as has been the case with many other important measures. The preservation of the trees covering the areas in which are found the headwaters of rivers is of especial importance. Upon the forests largely depends the supply of water in the valleys after the dry season has set in. Year by year the supply is more clearly seen to be of inestimable value. This bill now before the Public Lands Committee of the House of Representatives provides for the withdrawal of all Government forest lands from sale and entry and their temporary protection and management by a Commission which shall report a plan for permanent management at the next session. If the importance of the subject can in any way be impressed upon the minds of the committee, a favorable report will surely be made. The general observance of Arbor day and the usual planting of trees by the school children ought to be encouraged by all.

## The National Encampment.

The following is the outline of what Boston proposes to do to entertain the veterans in August. In the first place the Committee on Accommodations report that 4000 rooms in lodging and private houses have been secured, and that the Massachusetts Horticultural Society will give the use of its main hall during the week. Mechanics' Building, Music Hall, Horticultural Hall and other buildings will be appropriately decorated, and before many weeks an appeal will be made to the citizens of Boston to decorate their dwellings and places of business. The programme of the week is as follows:

Tuesday evening, Aug. 12, joint reception at the Mechanics' Building by the Grand Army of the Republic and Woman's Relief Corps.  
Wednesday evening, Aug. 13, grand camp fire at Mechanics' Building.  
Thursday evening, Aug. 14, banquet to delegates and distinguished guests at Mechanics' Building.  
Friday, Aug. 15, excursion to the historic town of Plymouth.  
Saturday, Aug. 16, harbor excursion on the steamer New York.

## Sons of the American Revolution.

At the annual meeting of the National Society of the Sons of the American Revolution held in Somerville on Wednesday the following officers were elected: President, Gen. Dr. William Seward Webb, New York; First Vice President, Gen. Lucius P. Deming, Connecticut; Secretary General, Lieut. J. C. Crenshaw, U. S. N., Maryland; Treasurer General, James Otis, New York; Registrar General, L. I. Tarbell, Massachusetts; Historian General, Wm. F. Gregier, Maryland; Surgeon General, Gen. Wm. Thornton Parker, M. D., Newport, Rhode Island; Chaplain General, Bishop Chas. Cheney, Chicago.

The placing of General John C. Fremont on the retired list of the army with the rank of Major General meets with public approval. The name of Fremont will always have honorable mention in American annals, and if his services during the war fell short of public expectation, those earlier achievements as an explorer which first made him famous will suffice to keep his memory green. Fremont is not a great man or a great General, but he is one of the most picturesque characters in our history, and it is only just that his latter days should be made easy by the government he has served.

A singular circumstance is reported by the District Attorney of Georgia, who says that moonshiners make a broad distinction between perjury in the State Courts and perjury in the Federal Courts. They perjure themselves outrageously in the latter tribunals and think nothing of it; they consider it their privilege to cheat the Government if they can, fair means or foul. But they cannot be induced to perjure themselves in a State Court. This is in keeping with the old fashioned States rights doctrine so long taught there.

It is estimated that more than twenty-five thousand colored people have emigrated during the past winter from the South Atlantic States to the Mississippi Valley.

The hotels will have all they can do during Election week this year. It will probably be a lively week.

## Indigestion and Liver Complaint.

MR. ADRIAN NADAN, of Lewiston, Me., writes: "I have for a long time suffered from indigestion and liver complaints, at times being unable to eat or to sleep. I have tried many remedies, but have not been able to get any relief. I have now been cured by the use of JOHNSON'S ANODYNE LINIMENT, and I can now eat all kinds of food. I feel much better and my liver is now in good health. I am sure this is a cure for indigestion, liver and kidney diseases."

## Our Coast Defences.

Commodore G. W. Piggan of the Navy speaking in regard to our coast defenses says: "The rifle guns which are now being made at the Washington Navy Yard, and with which it is proposed to arm all our monitors, exceed all other guns in the world. They surpass all other guns in the material put in them, and they have a greater initial velocity. Our guns are constructed to sustain a chamber pressure at the elastic limit of the material very considerably above that now in use as the standard pressure, and the Ordnance Bureau is thinking seriously of increasing the standard pressure with the object of obtaining greater muzzle velocity than 2000 feet per second. The monitor system is unquestionably the strong defence for us. The monitor has revolutionized naval warfare. It is the model of the best fighting ship afloat to-day. One of its advantages is the very small target it presents to the enemy. When loaded with ammunition and crew its freeboard is not more than 11 inches. It is a good floating battery for harbor defence, and is just the thing for fighting in smooth water. While not invulnerable, it is difficult to penetrate, its targets being heavy and of small dimensions. It has no special speed, but is easy to handle. Our other means of defence are torpedo-boats, which are exploded either by contact or fired from a station on shore. The advantage of this means of defence is the speed and comparative ease with which these mines can be placed. Swift torpedo boats also can be used to advantage, having a speed of 22 or 24 miles, with noiseless engine."

## Sunday Night's Fire.

Shortly after 8 o'clock Sunday night fire was discovered in a small barn on a court off Oak street, owned by the heirs of the late John T. Bush and occupied by Mr. James O'Hearne. An alarm was promptly sounded from box 21 and as promptly answered by companies 2 and 4, but the fire quickly spread to Mr. John M. Holt's barn on Oak street, occupied by Mr. T. E. Sherman and Mr. H. L. DeBloss, and a second alarm was rung in, calling out the No. 5's, and also hundreds of citizens. It was an ugly place for a fire, it being a nest of barns and small wooden houses, but the firemen worked well and succeeded in saving from total destruction all except the Holt barn, although at one time four or five different buildings were in flames. Mr. O'Hearne lost one horse and Mr. McLaughlin a couple of drags in the barn in which the fire broke out. Messrs. Sherman and DeBloss were fortunate enough to get their horses out of the Holt barn. Most of the losses were covered by insurance.

The origin of the fire is supposed to have been incendiary, and, as it is the second fire of the same character which has occurred in this locality within six months, in each case in barns adjoining one in which was stored large quantities of kerosene, it looks as if the object was a conflagration.

## Real Estate Sales.

Joseph M. Hammett has sold through Simeon Hazard 5000 square feet of land on Park street and Clinton Avenue, to Nicholas Dillon and wife, for \$1, etc.  
Luther Bateman has sold about three-fourths of an acre of land on Old Port road and Carroll Avenue to Richard Gardner, for \$10, etc.  
Louis Frank and Henry W. Struss of New York City have sold to Adolphus H. Steiber, also of New York City, for \$1 and other considerations, a lot of land in Newport bounded northerly by land of the heirs of Alfred Smith and of Joseph I. Bailey, easterly by land of the Gibbs Lumber Company, southerly on Buena Vista street and westerly on Gibbs Avenue.

A. O'D. Taylor has sold for Mrs. Fanny Lucas to Mr. Alva Francis Weaver, the lot of land on the western side of Thames street, corner of Connection street, measuring 4,500 feet.

## The Industrial School.

The vote of the Industrial School question last week Friday was very tight, but little interest being manifested either for or against. Out of a total of 1,798 tax payers on the voting lists only 207 voted. The vote by wards was as follows:

Wards.	1	2	3	4	5	Total
Yes.	10	12	22	22	13	79
No.	12	41	32	32	22	209

The local Foresters are to have a "social session" at Masonic Hall Tuesday evening, 27th inst., in honor of the Grand Court of the Ancient Order of Foresters of America in Rhode Island, to which a large number of the friends of the Order will be invited. The Newport Courts are in a very flourishing condition.

Mr. Benj. H. Dawley won a wager of \$2.00 Wednesday by wheeling in a barrow a bushel of gravel from Bateman's Point to the Park stables on Town and Spring streets. He thinks driving back much easier and quite as profitable as carting gravel, and has already abandoned the barrow business.

The petition for a new trial in the case of Mary A. Kault et al. vs. Lew Brown et al (the Stacy will case), has been denied by the supreme court. The denurrers of defendant, in the case of George W. Flagg vs. John Gilpin, have also been overruled by the same court.

## GLASS

WAS invented in England by Beaulieu, a monk, 40 years A. C. A small glass of the renowned G. O. Taylor Borden and Rye Whiskey will renew failing strength in the aged, and restore vitality and maintain failing powers. Its medicinal properties are established. It is bottled by CHESTER H. GRAYES & SONS, Boston, and pure Druggists and Grocers will endorse it.

## The Electric System.

A writer in Scribner's Magazine for April says: "The rapid extension of the electric street-car system, which has taken place (especially in this country), naturally leads to the question of the cause thereof. To have gained such preeminence it must be able to do not only what other systems can do, but, still more, it must be able to do it at a decreased cost. Again, removal of thousands of horses from the streets of a city, involving, as it does, the doing away with the noise and dirt, is another distinct gain to its residents. But if one goes still farther, and contemplates the difference between a stable housing thousands of horses, and an electric car station of sufficient size to operate a road with the same efficiency, one is at once struck with the advantages on the side of the electric system, which, indeed, are incontrovertible. Instead of a large, ill-smelling building whose odors are wafted for many blocks (making the tenacity of horses within half a mile almost unbearable and involving a large depreciation of property in the neighborhood), there is a neat, substantial building equipped with a steam plant and dynamo, and occupying hardly one-tenth the space required for an equivalent number of horses. Therefore, not only is there effected a removal of the nuisances attached to the stable, but a large saving in the cost of real estate, and the far greater amount involved in the known depreciation of the surrounding property. Besides this, the stables are of necessity required to be in close proximity to the track, whereas the electric power station, which furnishes current to the car, may be situated a mile from the track in some suitable place.

It is rumored in Paris that a new Panama Canal Company will be formed to begin where the old corporation left off. The report of the expert Commission will be published within two weeks, and probably the formation of a new company will depend upon that.

The guild room of St. George's church on Rhode Island Avenue was the scene Thursday evening of a very large gathering, my party, so called. An excellent literary and musical programme was rendered and a very social time enjoyed.

The members of Esther Lodge, D. of R., celebrated the 71st anniversary of the introduction of Odd Fellowship into America Tuesday evening with a social and dance, followed by a collation. The New Hampshire orchestra furnished the music.

A dozen trees were planted on Broadway yesterday afternoon under the supervision of Chairman Cozzens, Superintendent Fay and Rev. M. Van Horne, the sub-committee of the School Board on Arbor Day.

Messrs. Whipple & Derby have rented for Mr. James Gordon Bennett his cottage on Bellevue Avenue known as "Stonewilla," to Hon. Calvin S. Brice of Ohio for the season.

President Harrison has signed the joint resolution of Congress appropriating \$150,000 for the relief of the sufferers by the Mississippi flood.

At a sale of fast horses in Memphis, Tenn., one day last week, the stallion Troqueux was sold for \$14,000 and Luke Blackburn for \$20,000.

The Massachusetts fire losses last year amounted to \$12,853,202, of which Boston and Lynn sustained nearly \$10,000,000.

The wedding dress of Miss Theresa Fair, who is to marry Mr. Hermann Oelrichs at San Francisco, June 8, was imported at a cost of \$10,000.

## BLOCK ISLAND

During the heavy tempest which prevailed from midnight Saturday, most of the time till midnight Sunday, Surf cottage was struck by lightning, the bolt entering on the southwest corner of the cupola and shattering it completely. The roof was also considerably injured.

Rev. Mr. Pease, who severed his connection with the First Baptist Church here this spring, has recently been here as an agent for an electric lighting company, and has secured orders for nearly eighty. High street, Spring street, Water street and Main street will be brilliantly illuminated, and the effect will be very fine.

Dr. J. C. Champlin has removed into the cottage which he has rented near the landing.

Hon. Christopher E. Champlin, Senator-elect, came to the Island Saturday to stay over Sunday.

Mrs. Leander A. Ball, whose husband is proprietor of the Union House, is very sick with typhoid fever.

Work on Spring street which forms the lower part of the new road to Moccasin Bluffs, is going forward vigorously, and the street by the Moccasin and up to the Spring House will soon be a credit instead of a disgrace to the town.

**JOHNSON'S ANODYNE LINIMENT**

Unlike Any Other.

As much For INTERNAL as EXTERNAL use.

Many people do not know this.

The most wonderful Family Remedy ever known.

## Not a Pimple on Baby.

Baby one year old. Had with Eczema.

Half all gone. Scalp covered with eruptions.

Cured by Cuticura. Hair sprouting.

Cured by Cuticura

I cannot say enough in praise of the CUTICURA

Remedy. My boy, when one year of

age, was covered with eruptions that he lost all

his hair. His scalp was covered with eruptions,

and his hair would never grow again. I began

the use of Cuticura Remedies, and I am

happy to say, with the most perfect success.

His hair is now growing and there is not a

pimple on him. I recommend the CUTICURA

Remedy to mothers as the most speedy, economi-

cal and sure cure for all skin diseases of

infants and children, and feel that every

mother who has an afflicted child will thank

me for saying.

Mrs. M. E. WOODBURN, Norway, Me.

## S. S. Department

Sunday School Lesson—May 4.

THE RULER'S DAUGHTER.

Luke 8:22, 42, 43-46.

## Introduction.

In connection with, or following, the

expressive parable of the sower, our

Lord uttered the parable of the ruler,

and others. Then Jesus directed his

disciples to cross the lake, and while

crossing he killed the tempest. In the

country of the Gadarenes Jesus cast de-

mons from two, and the evil spirits so

affected the swine in trying to gain an

entrance that the swine ran down a

steep declivity and perished in the lake.

On the return of our Lord, and his dis-

ciples to Capernaum, Levi made a feast,

and there were publicans and sin-

ners. While our Lord was answering

the question of surprise that he should

attend a feast with such guests, and

was unfolding some truths concerning

the nature of his kingdom, a ruler of

the synagogue came with an earnest re-

quest for help.

The parable passages are: Matt. 13:18,

19 and 23-25; Mark 4:21-25 and 32-34.

## Explanatory Notes.

Verse 41. Ruler: On the other

side of the lake the citizens wished to

get rid of our Lord, for they were most

distressed for the healing of their swine

than they were for the healing of the

demon possessed. However, on

this side, presumably Capernaum, a

# MIDDLETOWN.

SCHOOL COMMITTEE MEETING.—The first meeting of the public school committee for organization was held at the town hall on Saturday, April 27. The following organization was then effected: Chairman, Lionel H. Peabody; Supt. and Clerk, Joel Peabody. A vote was passed requiring all teachers to pass an examination before the school board, before a certificate is granted authorizing them to teach in the public schools of this town. The school board will be in session on Saturday, May 3, at the town hall at 7:30 p. m., for the purpose of examining any teacher who may desire to teach in the public schools. The clerk was authorized to call all special meetings of the committee for the ensuing year. It was voted to hold the three remaining regular meetings of the committee for the year on the third Saturdays of July, October and January, at the town hall at 12 o'clock p. m.

The school terms were arranged as follows: Spring term from May 5 to June 27—8 weeks. Fall term from September 1 to November 21—12 weeks. Winter term to commence December 1 and continue 19 weeks, including the Christmas vacation. It was voted to approve of the action of School District No. 5, whereby it voted at the annual meeting to assess a tax of four hundred and fifty dollars on the taxable property to pay the indebtedness of the district.

Services at the M. E. church now begin at 2:30 and 7:30 p. m., a half hour later than during the winter. The Sunday School continues to meet at 10:30 a. m.

PORTSMOUTH.

The summer term of school commences on Monday next, May 1, with change of teachers in Vaulchase and in Griggs districts.

Bishop Clark confirmed three persons at St. Mary's Church at his annual visitation.

There was a very heavy white frost on the ground last Saturday morning.

Miss Agnes Murphy who has been quite sick with pleurisy is reported better.

La grippe still exists.

The New York Herald announces the matrimonial engagement of Mrs. Sands, widow of Mr. S. S. Sands, Jr., who was killed a little over a year ago by being thrown from his horse at Meadow Brook, L. I., to Mr. Lewis Morris Rutherford, Jr. Mr. Rutherford and Mrs. Sands are at present in Europe, but both are well known in Newport society.

Court of Probate, City of Newport, April 28, A. D. 1890.

ON THE PETITION of EDWARD M. CHANDLER, Executor of the last will and testament of EDWARD M. CHANDLER, deceased, praying for leave to sell the interest of said deceased in certain real estate situated in said Newport and particularly described in said petition, for the purpose of paying the funeral expenses, expenses of last illness, and debts of said deceased.

It is ordered that the consideration of said petition be referred to the 10th day of May, 1890, at 10 o'clock a. m., at the Probate Office in the City Hall, Newport, and that notice thereof be given to all persons interested, by advertisement in the Newport Mercury once a week, at least, for fourteen days.

EDWIN S. BURDICK, Probate Clerk.

GUARDIAN'S NOTICE.

THE UNDERSIGNED having been appointed by the Hon. Court of Probate of the City of Newport, guardian of the person and estate of ADDISON WILDER MILLER, minor, of Newport, hereby gives notice to persons having claims against said estate to present them within six months from the date hereof, and those indebted to make payment to her.

JENNIE L. MILLER, Guardian.

EXECUTOR'S NOTICE.

THE SUBSCRIBER, having been appointed by the Honorable Court of Probate of the City of Newport, executor of the last will and testament of EDWARD M. CHANDLER, late of Newport, deceased, and having been qualified according to law, requests all persons having demands to present them and all indebted to make payment to him.

GEORGE F. CHANDLER, Executor.

Office of the Probate Clerk of the City of Newport, in Rhode Island.

FRANK F. NOLAN, Administrator on the estate of

EDWARD M. CHANDLER, late of Newport, deceased, having this day filed in this office his petition in writing to the Court of Probate of said Newport, praying that he be appointed administrator on the estate of said deceased in certain real estate situated in said Newport and particularly described in said petition, for the purpose of paying the debts of said deceased, and a said petitioner having applied to me to give notice thereof by advertising in the Newport Mercury.

Notice is hereby given to all persons interested that said petition will be considered at the Court of Probate, to be held on Monday, May 13, at 10 o'clock a. m., at the Probate Office in the City Hall, Newport, and that notice thereof be published for fourteen days, once a week, at least, in the Newport Mercury.

EDWIN S. BURDICK, Probate Clerk.

NOTICE OF EXECUTRIX.

THE SUBSCRIBER, having been appointed by the Honorable Court of Probate of the City of Newport, executrix of the last will and testament of KATE D. CONGER, late of Newport, deceased, and having been qualified according to law, requests all persons having demands to present them and all indebted to make payment to her.

W. W. STALL, 509 Tremont St., BOSTON.

Under and by virtue of a power of sale contained in a mortgage of real estate made and executed by John O. Conner and Kate D. Conner, wife, joining therein in release of her right of dower, in favor of David H. Heap, dated October 29, 1888, and recorded in the Land Evidence of the City of Newport in the State of Rhode Island, in volume 15 of the records of Mortgages at page 274. In the office of the City Clerk in said City of Newport, the said mortgage was duly recorded, and the said mortgagee has been for more than ten days, the said mortgagee (the still being the owner of said mortgage) will sell at Public Auction, on the 10th day of May, A. D. 1890, all the right, title and interest which at the time of the execution of said mortgage, the said John O. Conner and Kate D. Conner, his wife, had in and to that certain lot or parcel of land with the dwelling-house, stable and other improvements thereon, situated on the southerly side of Bedford avenue in said City of Newport, and bounded northerly one hundred feet on said Bedford avenue, easterly one hundred feet on the line of the lot of Hannah Randolph, southerly one hundred feet on land now or late of William H. Peabody, and westerly one hundred feet on land now or late of the said Thorton. And said mortgagee hereby gives notice of his intention to bid upon said property at said sale.

DAVID H. HEAP, Mortgagee.

Newport, R. I., April 19th, 1890.

NEW ADVERTISEMENTS.

NEWPORT, R. I. SUPREME COURT, March Term, D. 1890. In Equity.

ARREB G. LAWTON vs. HERBERT LAWTON et al.

No. 264.

BY VIRTUE of a decree made in the above cause by said Court on the 24th day of March, A. D. 1889, the undersigned appointed a Special Master of said Court to sell at public auction on the premises a certain lot of land situated in the City of Newport, in the State of Rhode Island, and bounded as follows: To wit: On the north by the lot of said Herbert Lawton, late of said City of Newport, deceased, containing eight thousand and seven hundred and seventy (8,770) square feet of land, more or less, and the undivided interest therein, which said lot is described in the premises heretofore described, in the Town of Tiverton, in said County of Newport, and in the State of Rhode Island, being a lot of land situated in the town of Tiverton in said County of Newport, and in the State of Rhode Island, bounded northerly by the lot of said Herbert Lawton, late of said City of Newport, deceased, containing eight thousand and seven hundred and seventy (8,770) square feet of land, more or less, and the undivided interest therein, which said lot is described in the premises heretofore described, in the Town of Tiverton, in said County of Newport, and in the State of Rhode Island, being a lot of land situated in the town of Tiverton in said County of Newport, and in the
